ACCESS CONTROL

Access Control Systems is a key to security. In order to ensure that your facility is secure the first and foremost thing is to ensure control to access . ORIENT EXTREME Access Control solutions are your partner in ensuring that unauthorized access is not granted to the secure locations , thereby making certain to protect you from damage. The access control solution is for everyone but becomes even more important for business ' and governments organizations .

GUESTROOM MANAGEMENT

Wouldn't it be nice if your home takes care of you? Turn on the lights when you enter the room & when you leave it shuts itself off. Adora redefines your home, your life and your comfort. Never again get up to turn on a switch; control all your appliances through the app, home at your finger tip. One app to rule them all.

Your home understands you, it turns on the outdoor lights when its dark, it turns on the tv with your favourite show at the right time, it turns on the ac 15 minutes before you enter the room, every morning your home will be ready with the hot water for your shower, your home does all this and you don't even have to press a button. This might all sound like a scene from the sci-fi movie, welcome to the new normal.

VIDEO DOOR CALL SYSTEM

We are living in an unpredictable world where safety and security is quite vulnerable. There is no other way other than taking precautionary measures for our safety, and people who leave it for later often fall victim to malicious events. Therefore it becomes utmost important for us to take some steps to ensure the safety and security of our home and family. Fortunately, with the advancements of technology, many electronic products have come up in the market which ensures safety. Video Door Phones from OESS is one of the best replacements for traditional doorbells to keep unwanted visitors away from our home.

Video Door Phone is an intercom system that are used to make calls from the entrance of a building so as to communicate with visitors without any physical contact and allow them entry only if you wish to. Video door phones can easily be integrated with Access Control system, Intrusion Alarm System and Home Automation solutions for integration security and safety purpose.
